the state should become irrelevant

It is unreasonable to expect a representative in the Commons to do anything for you. Or your Union boss or God or anyone else.

you must do it yourself where you live & work

tell me, will you be ready

in October ?

Do you suppose the Labour Party are even aware of their historic role as the midwife of Fascism ?

This sheet has been produced to evoke radical response in those parts of East Anglia not subject to that gravitational pull towards London which deprives an area of any identity of its own. It is presented here in mosaic discontinuity, but we are not averse to continuous text and we want information. *Communicate!*

They

won't just go away and leave you in peace. No, *you* are going to have to stand up in a very firm and determined way to get *Them* off *your* back. *They* are quite comfortable, and seem to think *you* owe *them* Something.
The anger of centuries ?

'Why should we tolerate a diet of weak poisons, a home in insipid surroundings, a circle of acquaintances who are not quite our enemies, the noise of motors with just enough relief to prevent insanity ? Who would want to live in a world which is just not quite fatal ?'

Encroaching CONTROL

Black men, women!

Pity the poor white racists, they probably just have sex problems. They are afraid, as they sense that the tide of history is running against them. They are confused as their prejudice runs counter to the teachings of the religion to which they pay lip service. They are contemptible and they know it. There is no point in argument.

what does it all mean ?

6000 people in this country kill themselves every year because they are bloody fed up. Thousands more kill themselves slowly with alcohol. Surely this is indictment enough of a society to make urgent radical [from the roots] alteration essential ?

Revolution, it is only a form of mouthwash like Love *has been for 2000 years. they could prove us wrong. hope dies hard when a priest says*

I do not surrender to you, I only wait. When I can come at you I will; and meanwhile, if I can find any weakness in you, I will draw it to your attention. *Max Stirner*

How come
it appears
there is
one Law for

The rich & powerful are killing all the butterflies

If your children are to see butterflies you must be a revolutionary and yourself take control of your life and its surroundings

there is going to
be trouble in
this country soon.
What a terrible
ingratitude it
will be

The poor are not just poor, in isolation, they are poor because there are rich in the world, who through various controls determine the conditions of life of the poor

And the poverty is not just material, it is in the mediocrity of existence itself, a deprivation of a social, intellectual, emotional & sexual life of real content. To overcome the resulting isolation a determined intentional effort is necessary. Contact the commune movement
